- >> **May be tailored to a two-day, higher-level course for senior managers or similar audiences**

CALIBRE has a decade of experience in delivering comprehensive Working Capital Fund (WCF) training to DoD clients. We have trained over 2,500 students from interns to General Officers. We leveraged this experience to develop the The Air Force Working Capital Fund (AFWCF) basic course. Our course gives students an understanding of the structure of the AFWCF as a single business enterprise, and helps them understand the business dynamics both inside the fund and with AFWCF clients.

>> **CALIBRE's Offerings**

The AFWCF Basic Course is based on a thorough understanding of WCF concepts and practices. CALIBRE's AFWCF Basic Course uses the Department of Defense Financial Management Regulation 7000.14-R as its foundation, and incorporates our expert understanding of the laws and regulations that affect management of the AFWCF. Leveraging our years of experience conducting WCF training for WCF professionals, CALIBRE is ready to teach at our or your location.

Anti-Deficiency Act (ADA) Violations	

Why Choose CALIBRE as Your WCF Training Solution?

Features	Benefits
We train the AFWCF as a Single Business Enterprise.	Successful WCF operations are essential to the Air Force mission. Directly or indirectly, activities provide warfighters the key services needed to meet mission capability requirements.
Instructors act as facilitators, transferring their knowledge and conversancy to students. Each instructor has between 10 -25 years of experience in Working Capital Fund operations.	Students are treated as equals and allowed to voice their opinions freely in class. Theories and concepts are related to work-related activities the students will encounter.
Curriculum is student-centered and can accommodate 20-25 students.	Establishes an effective, proven, basic common core curriculum implementing DoD Financial Management Regulation 7000.14R (FMR) requirements.
Adult learning theory calls for instruction from a variety of tools and approaches, including practical exercises and learning consolidation games.	Students are actively involved in learning, as opposed to passively listening to lectures. Students and instructors interact and discuss; where exercises and experiences are used to bolster facts and theory.
Resource material at desk side is available in print and electronic media. It can be accessed via the Air Force portal and downloaded.	Extends community of practice. Provides for cost optimization in obtaining WCF resource material.

In today's \$27B Air Force Working Capital Fund environment, shouldn't you invest in making sure your workforce is armed for success?
